

2011 Macroeconomics Summer Programme evaluation

1. How would you rate the programme overall?

		Response Percent	Response Count
Excellent		58.7%	27
Very Good		34.8%	16
Good		6.5%	3
Satisfactory		0.0%	0
Poor		0.0%	0
answered question			46
skipped question			0

2. Would you recommend the Macroeconomics Summer Programme to others?

		Response Percent	Response Count
Yes		100.0%	46
No		0.0%	0
answered question			46
skipped question			0

3. Please answer the following questions related to Professor Wouter den Haan

	Excellent	Very Good	Good	Needs Improvement	Poor	Response Count
How would you rate the lecturer's content expertise?	95.7% (44)	4.3% (2)	0.0% (0)	0.0% (0)	0.0% (0)	46
How would you rate the lecturer's presentation of material?	37.0% (17)	52.2% (24)	10.9% (5)	0.0% (0)	0.0% (0)	46
What is your overall evaluation of the faculty member?	73.9% (34)	26.1% (12)	0.0% (0)	0.0% (0)	0.0% (0)	46

Page 2, Q1. Please answer the following questions related to Professor Wouter den Haan

1	The material is extremely rich, but a better planning would be essential.	Aug 30, 2011 10:00 PM
2	Professor den Haan is an excellent economist. The course, however, would benefit from imposing more specific entry requirements, so the audience is less heterogeneous and allows prof. den Haan to discuss more advance topics.	Aug 29, 2011 8:02 PM
3	The professor is very patient with students. He spent extra hours for questions, stayed for the afternoon group work and even help us debug our matlab codes.	Aug 29, 2011 9:21 AM
4	Some days there were many topics to cover, so the lecturer had to go fast	Aug 27, 2011 5:15 PM

Page 2, Q1. Please answer the following questions related to Professor Wouter den Haan

	and we couldn't follow very good. But in general it was very good	
5	It will be helpfull if the way to solve answer of assignment lab is explained rather than let the student solving it.	Aug 27, 2011 10:29 AM
6	Professor Den Haan was very well prepared. He really knew the material he was teaching, and spent time in between lectures explaining all kinds of questions people had, ranging from basic questions concerning the material, as well as more advanced material. He really showed dedication towards his work, and was able to explain difficult stuff in a short period.	Aug 24, 2011 9:22 PM
7	wouter did a great job in presenting the essentials of solving dsge models. I was particularly impressed by the appied sessions	Aug 23, 2011 9:31 PM
8	Brilliant ideas given with a lot of intuition, dedication and enthusiasm. Hard material, but with Wouter's help it was possible to follow both general picture, and to go into some technical details.	Aug 23, 2011 1:07 PM
9	Professor Wouter put a lot of effort during the courses to make everything from the teaching material as clear as possible to the students. Indeed, with his own initiative provide us an addditional tutorial in Thursday morning before the main lecture, to resolve any question emerged from the three previous ones. I think that this could have been done again in Friday noon, after the main 3hours lecture, not so as an additional tutorial but rather as a quick overview of the material taught in Part I. In other words, an additional hour of lecture for a coherent overview of the Part I material could have been added to the program defore the last tutorial lecture in lab.	Aug 22, 2011 7:04 PM

Page 4, Q2. Are there any additional topics you feel should have been covered in this course?

1	Liitle bitless math and a liitle bit more "economic thinking"	Aug 30, 2011 1:06 PM
2	binding constraints	Aug 29, 2011 9:38 PM
3	Too heterogeneous audience, need for more detail.	Aug 29, 2011 8:04 PM
4	As the course level is relatively advance, I would like to suggest that an optional first day of course dedicated to basics such as Matlab utilization and basics knowledge in DSGE be included in the program.	Aug 29, 2011 11:55 AM
5	More dynamic programming, Recursive Contracts	Aug 28, 2011 4:18 PM
6	More on estimation of the models	Aug 27, 2011 5:16 PM
7	as I am begginer in DSGE model, it will be better if everything is explained in detail...)	Aug 27, 2011 10:32 AM
8	We were taught a lot on how to solve the model, I have expected more on DSGE estimation.	Aug 23, 2011 1:10 PM
9	I think that the topic of removing trends and isolating cycles could have been added somehow in Part I of the courses. Professor Wouter talk a little about this (hp filter was employed in some codes), but not all the students are familiar with the methods used for data preparation.	Aug 22, 2011 7:20 PM
10	I was very ssatisfied with the course, just would have one suggestion i.e to use more concrete examples in the lectures and less general formulations.	Aug 22, 2011 3:58 PM

Page 4, Q2. Are there any additional topics you feel should have been covered in this course?

This would allow to provide a more concrete and detailed answers rather than with refering to the general formulations.

Page 6, Q2. Are there any additional topics you feel should have been covered in this course?

1	No, but maybe too many topics were covered.	Aug 31, 2011 1:03 PM
2	Some complex topics covered too quickly. Some "easy reading" topics covered too much....	Aug 29, 2011 8:05 PM
3	more details on the Reiter algorithm	Aug 29, 2011 5:26 PM
4	Would it be possible to Include more explanations in the slides ? It would very useful for the student once the course is over	Aug 29, 2011 12:03 PM
5	More on heterogeneous agents models; the part on learning was not enough deep	Aug 28, 2011 4:19 PM
6	no	Aug 28, 2011 2:58 PM
7	More examples on heterogeneuos agents, less the true frontier topics	Aug 27, 2011 12:09 PM

Page 7, Q1. Do you have any other comments about the teaching or courses?

1	Teaching in general was best when lectures were not overcrowded with material. In the most dense sessions it might be a better approach to cut down somewhat on the amoutnt of material covered, focus on specific points and indicate further readings/reference.	Aug 31, 2011 4:33 PM
2	Too much focus on learning and agent-based models. The part about heterogeneous agents was too fast. Next year better skip the learning part and focus on heterogeneous methods in practice (Xpa, Reiter, etc)	Aug 29, 2011 10:05 AM
3	The content is interesting and very useful for my future research. The professor is excellent in teaching. Since there are a lot of materials covered in the program, I do wish the program can lasts longer and allow some self-study in between two lectures.	Aug 29, 2011 9:33 AM
4	No.	Aug 29, 2011 1:45 AM
5	I would have welcomed more detailed references for preparation concerning the very basics of DSGE modeling in advance of the courses (1-2 months).	Aug 28, 2011 6:27 PM
6	- Excellent lecturer - Time was not enough: the course should last longer	Aug 28, 2011 4:20 PM
7	The course requirements were not explained clearly, thus the level of material and the exercise might not suitable for beginner. However, these were not explicitly inform in the brochure or in the invitation.	Aug 28, 2011 3:00 PM
8	It will helpfull for those new in this area if the answer or how the way to solve the assignment is expalined in more detail, in particular the trick to solve the model.	Aug 27, 2011 10:35 AM

Page 7, Q1. Do you have any other comments about the teaching or courses?

9	Eventually, classes could start slowly and growing in level step by step. And in each step would be great if they use more the codes already made. This would be really helpful for weaker students. Nevertheless, I restate that the entire course was a great experience.	Aug 27, 2011 10:00 AM
10	Excellent. The instructor introduces several frontier fields of research.	Aug 27, 2011 9:10 AM
11	The course sets the right focus, and is very well organized and structured. The professor is an excellent teacher and highly committed.	Aug 25, 2011 4:42 PM
12	Course was challenging, and was at the right level for me. I had to put in a lot of effort, but then I was able to keep up with the material, and this way I was able to maximize the return from the program. I am therefore very satisfied with the program.	Aug 24, 2011 9:29 PM
13	The social programme could be organised at the time closer to the beginning of the course.	Aug 23, 2011 1:11 PM
14	It was very good and interesting.	Aug 22, 2011 9:29 PM
15	My only comment is that I would suggest to have more applied stuff in the course i.e pick one model and do all the derivations with that model instead of using general formulations.	Aug 22, 2011 3:59 PM

Page 8, Q1. Why did you apply to the LSE Macroeconomics Summer Programme? (tick all that apply)

1	The topics covered.	Aug 29, 2011 1:45 AM
2	Neede that knowledge for my dissertation	Aug 27, 2011 12:09 PM
3	The topic is quite related to what I am interested	Aug 22, 2011 10:39 PM
4	Beacuse the material of the courses is essential for my PhD research and future work.	Aug 22, 2011 7:27 PM

Page 8, Q2. How did you find out about the LSE Macroeconomics Summer Programme? (tick all that apply)

1	E-mail	Aug 31, 2011 10:47 AM
2	Professor Den Haan attended me at the possibility of participating	Aug 24, 2011 9:33 PM
3	by email from the student of prof. Wouter den Haan	Aug 23, 2011 1:14 PM

Page 8, Q3. Which academic journals/publications do you regularly read?

1	AER, JME, Journal of Economic Dynamics and Control, Journal of Finance, Journal of Money Credit and Banking	Aug 31, 2011 4:35 PM
2	AER, JEL, JME	Aug 30, 2011 10:04 PM

26	The Economist	Aug 22, 2011 4:56 PM
27	major in economics, economic modeling, environmental, agricultural economics etc.	Aug 22, 2011 4:00 PM

Page 9, Q1. Please rate the following:

1	Computer rooms were very hot.	Aug 31, 2011 1:05 PM
---	-------------------------------	----------------------

Page 9, Q1. Please rate the following:

2	the class size was way too big	Aug 27, 2011 1:34 PM
3	I would like to suggest a better adjustment of the air conditioning, specially in the lecture room (it is too cold). The computer room is not appropriate for lots of people working together. Furthermore, since people usually are really demanding over teaching assistants, 2,5 per class would be better than the actual structure (~2 per class). Despite this comments, I restate that all in all, the program was amazing.	Aug 27, 2011 10:06 AM

Page 9, Q3. If you attended the Programme Dinner, how would you rate it?

1	You might want to consider changing the venue after the first week.	Aug 31, 2011 4:36 PM
2	it depends not so much on the meal (although it was good) but on the possibility to talk to each other	Aug 30, 2011 1:09 PM
3	Since there are so many people at the same time to be served, some mistakes were made (wrong dishes served). But the quality of the restaurant and the food are great.	Aug 27, 2011 10:06 AM
4	Very good part of the program. Nice way to get to your know your fellow students	Aug 24, 2011 9:35 PM

Page 9, Q5. Do you have any other comments about the logistics of the Programme?

1	just: very well organized!	Aug 30, 2011 1:09 PM
2	The Internet connectivity at Halls needs to be better explained...	Aug 29, 2011 8:07 PM
3	NO.	Aug 29, 2011 1:46 AM
4	The Library was excellent, very good to study there after classes	Aug 28, 2011 4:23 PM
5	Logistics was fine, the only point maybe in the student dormitory they provide the advise how to use internet there after 3 nights having spent there. But otherwise everything was OK and smooth.	Aug 22, 2011 4:02 PM

Page 12, Q2. Do you have any additional comments about accommodation?

1	dirty rooms/showers	Aug 31, 2011 3:13 PM
2	Toilets & bath-rooms at High Holborn not that good...	Aug 29, 2011 8:08 PM
3	Please provide more info about how to connect to the internet in the residence	Aug 29, 2011 10:07 AM
4	The mattress is too old. I feel like sleeping on springs directly, which results in back ache.	Aug 29, 2011 9:41 AM

Page 12, Q2. Do you have any additional comments about accommodation?

5	The accomodation was good but people at reception desk were not helpful at all	Aug 28, 2011 4:24 PM
6	Since the price is really good, It's not reasonable to complain about comfort facilities. But there are terrible problems about cleaning in the toilets and, specially, in the shower. Despite whatever they say, they are not cleaner every day. Further, some (some) staff people are really nasty people. Most of them, on the other hand, are really nice.	Aug 27, 2011 10:11 AM
7	No computers rooms as advertised on the webpage, no WiFi access at dormitory, breakfast served in another building. It was better to stay in High Holburn (at lower price)	Aug 23, 2011 1:17 PM
8	The mattress in my room is not in good condition.	Aug 22, 2011 9:33 PM
9	the computer room in Bankside wasn't available for the whole period of my staying. also, it was said that wi-fi internet can be accessible from the bankside bar and restaurant, which wasn't true. They either need to stop advertising that they have internet or really enable internet access.	Aug 22, 2011 5:16 PM
10	The stuff was very helpfull and they deserve a credit for that, just indicated to me too late about how to use internet in the room. They should have done that immidiately after arival. But apart of that, the place was OK.	Aug 22, 2011 4:04 PM

**Page 13, Q1. What was the postcode/area that you stayed in?
For example: N1 or Islington**

1	Shoreditch, Canary Wharf	Aug 31, 2011 10:50 AM
2	NW6	Aug 30, 2011 10:21 AM
3	Canary Wharf	Aug 29, 2011 5:28 PM
4	Temple	Aug 29, 2011 1:17 PM
5	NW3, Hendon	Aug 28, 2011 3:04 PM
6	N3 3AH	Aug 28, 2011 2:17 AM
7	WC1H 0PW	Aug 27, 2011 5:21 PM
8	E1	Aug 27, 2011 1:36 PM
9	Cambridge	Aug 27, 2011 12:38 PM
10	N3 3HE	Aug 27, 2011 11:13 AM
